APPENDIX A

COST BREAKDOWN
(revised by Addendum #6, 10/4/06)

To: City of Calabasas
26135 Mureau Road
Calabasas, California 91302-3172

Project: Calabasas Civic Center

Dated: October 25, 2006 and made an integral part of the Bid Form.

Submitted by: Bernards Bros. Inc.
(full company name)

Provide cost breakdown of the Bid Price in the format as follows in the following pages in a manner respecting the following rules and guidelines.

1. Apportion costs that are shared between two or more of the three categories of Work (1) City Hall, (2) Library and (3) Sitework) and between more than one line item (trade).
2. Apportion general conditions, other indirect costs and contractor's fee for profit and overhead between the three categories of Work on a pro rata basis.
3. Apportion central plant mechanical and electrical costs to the City Hall and Library.
4. Include temporary dewatering, if any, in the structural costs of the City Hall and Library.
5. With the exception of mechanical and electrical costs of the central plant, and with the exception of trellises attached to the City Hall and Library, include costs of the central plant and all other site structures in Sitework.
6. Include structural trench and backfill caused by the footings in the footing (concrete) costs.
7. Where ornamental structures are attached to the City Hall and Library, apportion them to the City Hall and Library. Where they are attached to the central plant or are free standing, include them in Sitework.

8. Include grading and earthwork under City Hall as a cost of City Hall. Include grading and earthwork under the Library as a cost of the Library. Other grading and earthwork operations shall be included in Sitework.
9. Include all sub-slabs, flatwork, built-up slabs, stairs, ramps, site walls, appurtenances, and all paving materials (concrete, cast stone, pavers, a.c. paving) that are outside the footprint of the Library and City Hall in the costs of Sitework.
10. Include pavers within the footprints of the Library and City Hall in the costs of the Library and City Hall.
11. Include the cost of site distribution of utilities in Sitework.
12. Apportion elevators on the basis of numbers of elevator stops to City Hall (2 stops) and Library (1 stop).
13. Apportion the \$10,000.00 Allowance for permits according to the breakdown above, in Schedule B to the Bid Form, List of Additive Alternates & Allowances.
14. Do not include the costs of Additive Alternates in the Cost Breakdown.
15. To the extent line items (trades) or specialties are missing in the forms that follow, combine the cost of missed line items in the most similar line items shown, and in the proper category of Work (City Hall, Library and Sitework).
16. It is permissible, within a category of Work, to write "included" for a line item that is combined with another line item provided the other line item is in the same category of Work (City Hall, Library and Sitework).

The balance of this page is intentionally left blank.
