

City Response to Request for Information on Las Virgenes/Thousand Oaks Roundabout Project, No. 16-17-01

Reference: Bid Item 38, Furnish and install electrical meter pedestal, enclosure, concrete pad and interconnection to SCE System. Electrical Plan Sheets E.2 and E.3.

Question: Please identify the location of SCE's the Point of Connection, or provide approved SCE plans, to price the service interconnect accordingly.

Response: Approved Plans from SCE for Point of Connection to service pedestal are being finalized and will be given once received. Point of connection is anticipated to be at the southwest corner of Las Virgenes Rd and Brittany Court as seen on Addendum No. 1. Final location of service pedestal and point of connection shall be per SCE approved plans.

Reference: Bid Item 38, Furnish and install electrical meter pedestal, enclosure, concrete pad and interconnection to SCE System.

Question: Are there any SCE fees required to tie into the existing SCE system for this project? If so, please identify the SCE fee cost.

Response: City will pay fees associated with SCE application for new service; other fees associated with the connection are unknown at this time.
