Profile of the City of Calabasas

Southern California Association of Governments’ (SCAG) Regional Council includes 67 districts which represent 190 cities in the SCAG region.

SCAG Regional Council District 44 includes Agoura Hills, Calabasas, Hidden Hills, Malibu, and Westlake Village

District 44 does not currently have a representative.

This profile report was prepared by the Southern California Association of Governments and shared with the City of Calabasas. SCAG provides local governments with services including planning data and information; technical assistance such as GIS training; and planning assistance such as growth visioning and analyses of infill developments and their fiscal impacts.

I. Introduction

The purpose of this report is to provide the City of Calabasas with timely information to support its planning and outreach. Information on, for example, population, home prices, employment, and retail sales, has been obtained from a number of sources. The profile focuses on the changes in the city since 2000 in comparison with that of Los Angeles County. In addition, the most current data available for the region is also included in the Statistical Summary (see next page). The profile information is presented to demonstrate current trends for consideration when planning for the City of Calabasas.

The Southern California Association of Governments (SCAG) is the largest Metropolitan Planning Organization (MPO) in the nation. The SCAG region includes six counties (Imperial, Los Angeles, Orange, Riverside, San Bernardino and Ventura) and 190 cities. As the designated MPO, SCAG is mandated by federal and state law to research and develop a Regional Transportation Plan incorporating a Sustainable Communities Strategy. SCAG is currently undertaking a variety of planning and policy initiatives to foster a more sustainable Southern California now and in the future.

In 2008, SCAG initiated the Local Profiles Project as part of the variety of services provided to its member cities and counties. Through an extensive input process from the member jurisdictions, the inaugural Local Profiles Reports were released at the General Assembly in May 2009. It should be noted that this profile report is provided as part of the SCAG member benefits. Accordingly, the use of this data is voluntary.

Building on the foundation of the inaugural reports, the 2011 update includes several additional features. First, a new section on Transportation has been added. Second, SCAG staff also developed new profile reports for the counties, in addition to profiles for only the unincorporated areas. Finally, due to the large number of reports (190+) that need to be prepared, an important part of the update is to develop an automated process using the latest software technology to increase efficiency. Due to the continuing releases of the new Census data, SCAG will make its best effort to provide timely updates to its members through its website at www.scag.ca.gov/resources/profiles.htm prior to the scheduled biennial update in 2013.

This profile report has three sections. The first section presents a Statistical Summary table for the City of Calabasas. The second section provides detailed information organized by subject areas such as population, housing, transportation, and employment. It also includes very brief highlights on the impacts of the recent recession at the regional level which are reflected in almost all Local Profiles. Lastly, the Methodology section describes technical considerations related to data definitions, measurement, and data sources.

Sources: U.S. Census Bureau; Nielsen Co.; California Department of Finance; MDA DataQuick; and SCAG
* Numbers with [ ] represent Calabasas's share of Los Angeles County. The other numbers represent the difference between Calabasas and Los Angeles County.
II. Population (City of Calabasas)*

Population Growth

- Between 2000 and 2010, the total population of the City of Calabasas increased by 1,702 reaching 23,058 in 2010.
- During this 10-year period, the city’s population growth rate of 8 percent was higher than the Los Angeles County rate of 3.1 percent.
- In 2010 the city’s population was ranked 62nd out of 88 cities in the county.

Note: Due to discrepancies in 2010 population estimates between the U.S. Census Bureau and the California Department of Finance (DOF), in fall 2011, DOF is scheduled to revise 2001 to 2009 estimates, in light of the 2010 Census counts. After the DOF revises its 2001 to 2009 estimates, SCAG plans to incorporate them in updated Local Profiles reports.

* The following charts in this report contain data for the City of Calabasas unless noted otherwise.
Between 2000 and 2015, the age group 21-34 is projected to experience the most growth in share, growing from 13.1 to 19.3 percent.

The age group expected to experience the greatest decline, by share, is projected to be age group 35-54, decreasing from 37.2 to 24.7 percent.

Age group 21-34 is expected to add the most population, with an increase of 2,166 between 2000 and 2015.
**Population by Race/Ethnicity**

**Hispanic or Latino of Any Race: 2000, 2010**

- Between 2000 and 2010, the share of Hispanic population in the city increased from 4.7 percent to 6.4 percent.

**Non-Hispanic White: 2000, 2010**

- Between 2000 and 2010, the share of Non-Hispanic White population in the city decreased from 83.8 percent to 79.5 percent.
• Between 2000 and 2010, the share of Non-Hispanic Asian population in the city increased from 7.6 percent to 8.6 percent.

Non-Hispanic Asian: 2000, 2010

Sources: 2000 and 2010 Census

• Between 2000 and 2010, the share of Non-Hispanic Black population in the city increased from 1.1 percent to 1.5 percent.

Non-Hispanic Black: 2000, 2010

Sources: 2000 and 2010 Census
• Between 2000 and 2010, the share of Non-Hispanic American Indian population in the city remained at 0.1 percent.

Sources: 2000 and 2010 Census

• Between 2000 and 2010, the share of Non-Hispanic All Other population group in the city increased from 2.6 percent to 3.8 percent.

• Please refer to the Methodology section for a definition of the races included in this category.

Sources: 2000 and 2010 Census
### III. Households

#### Number of Households

**Number of Households: 2000, 2010**

- **Between 2000 and 2010**, the total number of households in the City of Calabasas increased by 699 or 8.9 percent.
- **During this 10-year period**, the city’s household growth rate of 8.9 percent was higher than the overall county growth rate of 3.4 percent.
- **Note**: 2000 and 2010 data are based on actual Census counts. For 2001 to 2009 data, SCAG plans to incorporate DOF’s revised estimates scheduled for fall 2011.
- **In 2010**, the city’s average household size was 2.8, lower than the overall county average of 3.1.
- **Between 2000 and 2010**, average household size increased by 3.1 percent in the city.

#### Average Household Size: 2000 - 2010

![Graph showing average household size from 2000 to 2010 for Calabasas and Los Angeles County]

Source: California Department of Finance, E-5, May 2010
**Households by Size**

Households by Household Size: 2010

- In 2010, 66.6 percent of all city households had 3 people or fewer.
- About 16 percent of the households were single-person households.
- Approximately 13 percent of all households in the city had at least 5 people.

Source: Nielsen Co., 2010

---

**Households by Income**

Households by Household Income: 2010

- In 2010, 16 percent of households earned less than $50,000.
- Approximately 23 percent of the households earned between $50,000 and $99,999.

Source: Nielsen Co., 2010
### IV. Housing

#### Housing Production

**Residential Units with Permits Issued: 2000 - 2010**

- Between 2000 and 2010, permits were issued for 737 new residential units. About 10.7 percent of these were issued in the last 3 years.

**Units with Permits Issued per 1,000 Residents: 2000 - 2010**

- In 2000, the City of Calabasas had 2.2 permits per 1,000 residents compared to the overall county figure of 1.8 permits per 1,000 residents.

- For the city in 2010, this figure increased to 3.3 permits per 1,000 residents and for the county overall decreased to 0.8 permit per 1,000 residents.

Sources: Construction Industry Research Board, 2000-2010; SCAG
• Between 2000 and 2006, median home sales price increased 134 percent going from $490,000 to $1,149,000.

• Median home sales price decreased by 7.3 percent between 2006 and 2010.

• In 2010, the median home sales price in the city was $1,065,000, $732,000 higher than that in the county overall.

• Note: Median home sales price reflects resales of existing homes and simply provide guidance on the market values of homes sold in the city.

• Between 2000 and 2006, annual home sales price change was between -3.8 and 27.1 percent.

• Between 2006 and 2010, the change in annual home sales prices was between -16.3 and 21.7 percent.
V. Transportation

Journey to Work for Residents

- Between 2000 and 2010, the greatest change occurred in the percentage of individuals who traveled to work by carpool, whose share decreased by 2.2 percentage points.

Average Travel Time: 2000, 2008, 2010 (minutes)

- Between 2000 and 2010, the average travel time to work increased by approximately 1 minute.
VI. Employment

Total Jobs: 2007 - 2010

- In 2010, total jobs in the City of Calabasas numbered 13,413, a decrease of 11.7 percent from its 2007 level.

- Total jobs included wage and salary jobs and jobs held by business owners and self-employed persons. The total job count does not include unpaid volunteers or family workers, and private household workers.

Jobs in Manufacturing: 2007 - 2010

- Manufacturing jobs include those employed in various sectors including food, apparel, metal, petroleum and coal, machinery, computer and electronic product, and transportation equipment.

- Between 2007 and 2010, the number of manufacturing jobs in the city decreased by 16.6 percent.

Sources: California Employment Development Department, 2007 to 2010; InfoUSA; and SCAG
Jobs in Construction: 2007-2010

- Construction jobs include those engaged in both residential and non-residential construction.
- Between 2007 and 2010, construction jobs in the city decreased by 33.8 percent.

Sources: California Employment Development Department, 2007 to 2010; InfoUSA; and SCAG

Jobs in Retail Trade: 2007-2010

- Retail Trade jobs include those at various retailers including motor vehicle and parts dealers, furniture, electronics and appliance, building material, food and beverage, clothing, sporting goods, books, and office supplies.
- Between 2007 and 2010, the number of retail trade jobs in the city decreased by 9.6 percent.

Sources: California Employment Development Department, 2007 to 2010; InfoUSA; and SCAG
Jobs in Professional and Management: 2007 - 2010

- Jobs in the professional and management sector include those employed in professional and technical services, management of companies, and administration and support.

- Between 2007 and 2010, the number of professional and management jobs in the city decreased by 13.1 percent.

Sources: California Employment Development Department, 2007 to 2010; InfoUSA; and SCAG
Between 2007 and 2010, there were minor changes in the share of jobs by sector in the city.

From 2007 to 2010, the share of Education-Health Jobs increased from 9.7 percent to 11.2 percent while the share of Construction jobs declined from 7.9 to 5.9 percent.

In 2010, the Professional-Management sector was the largest job sector, accounting for 22.9 percent of total jobs in the city.

Other large sectors included Finance-Insurance-Real Estate (19.3 percent), Education-Health (11.2 percent), and Leisure-Hospitality (10.6 percent).
Average Salaries

Average Annual Salary per Job: 2003 and 2009

- Average salaries for jobs located in the city decreased from $67,096 in 2003 to $57,982 in 2009, a 13.6 percent change.

Average Annual Salary by Sector: 2009 (in $ thousands)

- In 2009, the sector providing the highest salary per job in the city was Information ($86,206).
- The Other Services sector provided the lowest annual salary per job ($26,317).

Source: California Employment Development Department, 2003 & 2009
VII. Retail Sales

Real Retail Sales: 2000 - 2009 (in 2009 $ millions)

- Real retail sales (inflation adjusted) in the City of Calabasas increased by 52 percent between 2000 and 2005.
- Real retail sales decreased by 43.7 percent between 2005 and 2009.

Real Retail Sales per Person: 2000 - 2009 (in 2009 $ thousands)

- Between 2000 and 2009, real retail sales per person for the city decreased from $15,249 to $11,793.
VIII. Public Education

K-12 Public School Student Enrollment: 2000 - 2008

- Between 2000 and 2008, total K-12 public school enrollment for schools within the City of Calabasas increased by 220 students, or about 4 percent.

Source: National Center for Education Statistics, 2000-2008

K-6 Public School Student Enrollment: 2000 - 2008

- Between 2000 and 2008, total public elementary school enrollment decreased by 218 students or 8 percent.

Source: National Center for Education Statistics, 2000-2008
Grades 7-9 Public School Student Enrollment: 2000 - 2008

Between 2000 and 2008, total public school enrollment for grades 7-9 increased by 186 students or 11.8 percent.

Grades 10-12 Public School Student Enrollment: 2000 - 2008

Between 2000 and 2008, total public school enrollment for grades 10-12 increased by 252 students, about 20 percent.
IX. Regional Highlights (Reflecting Impacts from the Recession)

Regional Median Home Sales Price: 2000 – 2010

• After reaching its peak in 2007, the median sales price for existing homes in the region dropped by half in 2009 from its 2007 level and rebounded slightly in 2010.

• Median home sales price was calculated based on total existing home sales in the region. In 2010, the Inland Empire, with much more affordable home prices around $180,000, accounted for almost 40 percent of the home sales in the region.

Regional Real Retail Sales: 2000 - 2009 (in 2009 $ millions)

• Retail sales tend to follow closely with trends in personal income, employment and consumer confidence.

• Between 2000 and 2006, real retail sales increased steadily by 19 percent.

• Impacted by the recession, real retail sales in the region dropped continuously between 2006 and 2009 for a total of $50 billion, or 25 percent.

• In 2009, total real retail sales were still eleven percent lower than the 2000 level.

XI. Methodology

Statistical Summary Table

In the Statistical Summary Table (page 2), the values in Jurisdiction Relative to County/Region are the differences between the jurisdiction’s value and the county/region value, except for the following categories which represent the jurisdiction’s value as a share of the county (or in the case of an entire county as a share of the region). These categories include Population, Number of Households, Number of Housing Units, Residential Units with Permits Issued, Number of Jobs, Total Jobs Change, Retail Sales, and K-12 Student Enrollment.

Median Age, Homeownership Rate, and Median Household Income are based on Nielsen Company data. Number of Housing Units is based on the 2010 Census. Data for all other categories are referenced throughout the report.

In the 2009 inaugural Local Profiles reports, the values in Jurisdiction Relative to County/Region for absolute numbers indicated the difference between the jurisdiction’s value and the county/region value. For example, the Median Age of Jurisdiction A being 30 and the Median Age of County B being 35 would have shown a value of -5. For data represented as a percentage, the relative difference was based on the jurisdiction as a percentage of the county/region total.

Population Section

The 2000 figure was based on U.S. Census figures for April 1, 2000 and the 2010 figure was based on U.S. Census figures for April 1, 2010. Due to discrepancies in 2010 population estimates between the U.S. Census Bureau and the California Department of Finance (DOF), in fall 2011, DOF is scheduled to revise 2001 to 2009 estimates, in light of the 2010 Census counts. After the DOF revises its 2001 to 2009 estimates, SCAG plans to incorporate them in updated Local Profiles reports.

Below are definitions for race and ethnicity, which are taken from the U.S. Census Bureau. The Hispanic or Latino origin category is:

• A person of Cuban, Mexican, Puerto Rican, South or Central American, or other Spanish culture or origin, regardless of race.

The race categories are:

• American Indian or Alaska Native – A person having origins in any of the original peoples of North and South America (including Central America), and who maintains tribal affiliation or community attachment.

• Asian – A person having origins in any of the original peoples of the Far East, Southeast Asia, or the Indian subcontinent including, for example, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, and Vietnam.

• Black or African American – A person having origins in any of the black racial groups of Africa, including those who consider themselves to be "Haitian."
• White – A person having origins in any of the original peoples of Europe, North Africa, or the Middle East.

• Some other race – This category includes Native Hawaiian or Other Pacific Islander (a person having origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific Islands) and all other responses not included in the "American Indian or Alaska Native," "Asian," "Black or African American," and "White" race categories described above.

Charts for population based on age were tabulated using 2000 Census data and Nielsen Company data for 2010 and 2015. Charts for race/ethnicity were tabulated using 2000 and 2010 Census data.

Households Section

The 2000 figure was based on U.S. Census figures for April 1, 2000 and the 2010 figure was based on U.S. Census figures for April 1, 2010. Due to discrepancies in 2010 household estimates between the U.S. Census Bureau and the California Department of Finance (DOF), in fall 2011, DOF is scheduled to revise 2001 to 2009 estimates, in light of the 2010 Census counts. After the DOF revises its 2001 to 2009 estimates, SCAG plans to incorporate them in updated Local Profiles reports.

Households by size were calculated based on Nielsen Company data.

Housing Section

The number of residential units with permits issued was obtained using Construction Industry Research Board data, which are collected by counties from self-reporting of individual cities. It represents both single family and multifamily housing units that were permitted to be built, but may not actually have been built.

The median home sales price, compiled from MDA DataQuick, was calculated based on total resales of existing homes in the jurisdiction, including single family units and condominiums. The median price does not reflect the entire universe of housing in the jurisdictions, only those that were sold within the calendar year.

Transportation Section

The journey to work data for the year 2000 was obtained by using the 2000 Census Summary File 3. The 2008 and 2010 data are based on 2000 data and adjusted using more current information available from the Census Bureau including the American Community Survey.

Employment Section

Data sources for estimating jurisdiction employment include 1) wage and salary employment for each county by 13 industries using data (2010 Benchmark) from California Employment Development Department (EDD), 2) self-employment rates based on 2000
PUMS (Public Use Microdata Sample), and 3) the share of jurisdiction to county employment by industry - calculated based on 2008 InfoUSA data. First, total county employment is calculated by adding self-employment to wage and salary employment. Jurisdiction employment by industry is then calculated based on constant share method – multiplying jurisdiction to county employment share in 2008 by county total employment for each industry.

**Retail Sales Section**

Retail sales data is obtained from the California Board of Equalization, which does not publish individual point-of-sale data. All data is adjusted for inflation.

**Public Education Section**

Student enrollment data is based on public school campuses that are located within jurisdiction boundaries. Data is obtained from the National Center for Education Statistics.

**Data Sources Section**

In choosing the data sources used for this report, the following factors were considered:
- availability for all jurisdictions in the SCAG region,
- the most recognized source on the subject,
- data sources within the public domain, and
- data available on an annual basis.

The same data sources are used for all Local Profiles (except where noted) to maintain overall reporting consistency. The jurisdictions are not constrained from using other data sources for their planning activities.

The preparation of this report has been financed in part through grants from the Federal Highway Administration and Federal Transit Administration, U.S. Department of Transportation, under the Metropolitan Planning Program, Section 104(f) of Title 23, U.S. Code. The contents of this report do not necessarily reflect the official views or policy of the U.S. Department of Transportation. Additional assistance was provided by the California Department of Transportation.
XII. Acknowledgments

SCAG Management
Hasan Ikhrata, Executive Director
Douglas Williford, Deputy Executive Director, Planning & Programs
Huasha Liu, Director, Land Use & Environmental Planning
Debbie Dillon, Deputy Executive Director, Administration
Sharon Neely, Deputy Executive Director, Strategy, Policy & Public Affairs
Joann Africa, Chief Counsel
Rich Macias, Director, Transportation Planning
Wayne Moore, Chief Financial Officer
Sylvia Patsaouras, Interim Director, Regional Services & Public Affairs

Project Manager
Ping Chang, Program Manager, Land Use & Environmental Planning

Editors
Bernard Lee, Associate Regional Planner
Javier Minjares, Regional Planner Specialist
