

Calabasas Library App – Cloud Library titles

You can now read or listen to e-books and a-audiobooks from the Calabasas Library Mobile app.

To get the app, go to the App Store or Google Play and look up Calabasas Library. Or click here - <http://innovativemobile.net/CalabasasLibrary>

When you download the app, you need to log into the app with your Calabasas Library card in good standing.

Using search, look up the title you would like. When you find it, it will say either Place Hold or Download Now.

Download Now – It will go into a browser where you can immediately read or listen. It will be checked out on your Cloud Library app as well. When you go into Cloud Library app, you can download it there and listen. Whether you use a browser or Cloud Library it will remember where you left off. Once you download, you don't need wifi to read or listen.

Place Hold – You can cancel and suspend your hold in the Mobile app. It will show up in the Cloud Library app. The timing depends on the device.

If you have questions, please email ksteward@calabasaslibrary.org.
